

# Automation and Control Products

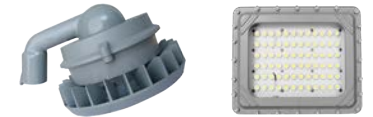

## Linesheet for Industrial Instrumentation

- all-in-one HMI, PLC, I/O; vibrant color touchscreen
- remote monitoring, web-enabled, MQTT Sparkplug, Modbus, CANopen, BACnet, Ethernet/IP, SAEJ1939
- free programming & config software (Cscope 10)
- dual ethernet; plug-and-play data logging
- Class1, Div2; ATEX certifications; BABA Act

- industrial lighting: HazLoc, task lights, linears, UV, inspection, grow lights, and lighting controls

- signal conditioning with Modbus connectivity
- intrinsically safe options, Bluetooth accessible
- universal and temperature transmitters, isolators
- smart safety converters, frequency converters
- digital displays (LED, LCD), easy programming

- thermal mass low flow meters and controllers
- Coriolis low flow meters/controllers (<1 gram/hr)
- custom manifolds for flow and pressure
- all-in-one compact flow, temp, pressure controllers
- vapor generation and liquid dosing systems

- pressure transducers and transmitters
- explosion-proof, intrinsically safe, or non-incendive
- 316L, Hastelloy C276, or Inconel material
- gauge, differential, absolute, downhole, submersible
- pressures up to 45,000 PSI, temps to 200°C

- turnkey solutions for lightning and surge
- signal, data, AC, telecom., power protection
- external lightning protection for facilities
- lightning studies and assistance available
- grounding, cables, lightning rods, etc.

- industrial cellular routers, gateways, and switches
- latest 5G and Wi-Fi6 routers, secure connectivity
- robust dual-SIM failover and VPN support
- rugged DIN-rail mount, Class1 Div2, -40 to 75°C
- supports Modbus, MQTT, SNMP, and more

# Automation and Control Products

## Linesheet for Industrial Instrumentation

**KROHNE**

- exclusive distributor for municipal / wastewater, authorized service provider for TX and OK region
- magmeters, VA meters (rotameters), and more
- battery magmeters; meters for partially filled pipes
- level transmitters and switches

**Transducer USA™**

- sonar-based continuous level, interface transducer
- detects multiple density interfaces simultaneously
- liquid/liquid, solid/liquid detection
- ideal for oil storage tanks, clarifiers, desalters, etc.

**NEWTEK**  
Sensor Solutions  
Providing Custom Sensor Solutions

- valve position sensors, downhole well monitoring
- GE and Westinghouse replacement LVDTs
- submersible CAN BUS communication
- industrial gauging, process control, HazLoc, high temp, radiation resistant options

**NIVELCO**  
PROCESS CONTROL CO.

- level transmitters, switches, and floats
- 2-wire, 80 Ghz radar level transmitters
- guided microwave, ultrasonic, capacitive, magneto-strictive, and more

**KAYDEN**  
INSTRUMENTS

- thermal dispersion flow switches and meters
- level switches, interface sensing
- easy, user-friendly setup, rugged design
- integral and remote style electronics enclosures
- approved for installation in hazardous areas

**ecom**  
Intelligent Analysis

- combustion and emissions monitoring; CEMs
- ECOM authorized service center for calibrations and repairs
- spare parts and rental units on-hand

**PSC**

- vapor generation systems; liquid dosing systems
- gas cylinder monitoring and tracking systems
- breathable oxygen deficiency monitor
- online remote monitoring portals, MQTT solutions
- programming, design, and engineering assistance
